TERRE ROUGE® AND EASTON WINES

## **2012 EASTON “H” HOUSE, California**

**EASTON** House or “H” is our accessible, early drinking Languedocian table red composed of approximately about two-thirds Syrah and one-third Cabernet Sauvignon. It is similar to many of the new wave wines being made in the Côte de Provence region of Southern France like Domaine de Trevallon. This is a complex bottle of wine for the money. It is made from high elevation Syrah and excess Cabernet Sauvignon from our estate vineyard. House complements most Mediterranean and Californian cooking and it works well with other full-flavored foods. This 2012 was completely produced and bottled at our Shenandoah Valley, California facility.

The wine shows an abundance of immediately enjoyable juicy fruit that is balanced with spice, and nuanced and complex flavors. It is packaged with a Stelvin screw-cap closure and packed in a printed colored box that makes it attractive for floor stacking.

13.5% alc. by volume; 3.58 pH; 6.0 grams per liter total acidity
